Incident Number: 190023900**EMS Agency Name:** Henry County Fire Department

R5 responded immediately to an altered mental status call at the intersection of Oak St. and Windsor Pkwy in Hampton GA. Dispatch advised that the Pt would be a male in PD custody w/ altered mental status. Upon arrival, found HCPD and Hampton PD out w/ a 24YOM laying prone on the roadway. Pt was unconscious unresponsive. Pt was restrained w/ handcuffs on his wrists w/ his arms stretched above his head. One PD officer was physically restraining the Pt w/ his knee in the middle of the Pt's back. I asked the officer to remove his knee so that I might assess the Pt. I was informed by the officer that the Pt may be violent. I told the stated to the officer that I needed to assess the Pt's breathing. The officer agreed and I was able to determine that the Pt was not breathing. Upon further assessing the Pt I found that the Pt was pulseless. R5 crew rolled the Pt to his back and CPR was initiated per ACLS and HCFD protocols.

Pt was unconscious unresponsive, airway was open and clear, pupils fixed dilated and non-reactive, HEENT presented w/ bruising and abrasions to left side of face, trachea midline, chest presented w/ bruising and abrasions on upper left, abdomen soft non-distended, upper left arm presented w/ patterned markings and bruising - right arm and both legs presented with minor abrasions, skin cool and dry. fast pads showed asystole on the monitor.

Pt vitals: unable to obtain

Pt suffered cardiac arrest. Cause undetermined.

Pt was assessed and company 5 crew provided high quality CPR per ACLS and HCFD protocols. Pt was attached to the monitor fast pads. Pt rhythm was consistent w/ asystole. #5 king airway was placed and confirmed via auscultation and wave form capnography. Pt was ventilated via BVM w/ high flow O₂. IO was successfully established in left tibia. 1mg epinephrine was administered. After one round of CPR, Pt rhythm was consistent w/ PEA. CPR was continued. Second round of epinephrine was administered. At pulse check, rhythm was consistent w/ sinus tach. Pulse was assessed and found to be present. BP was assessed. Pt maintained pulse for approximately 5 minutes. After reassessment pulse was absent. High quality CPR was initiated. Third epinephrine was administered. 2mg of narcan were administered. At pulse check rhythm was consistent w/ sinus tach. Pulse present. Pt was transported with lights and sirens to Piedmont Henry. Pt report was called in to the ER. Upon arriving at the hospital, charge nurse was notified. Charge nurse assigned Pt to room 1175. Pt was moved to hospital bed w/ lift sheet. Report was given to receiving nurse and Pt care was transferred. R5 returned to service.
